Education

COMSATS University Islamabad

Sep 2022 – July 2026

Bachelor of Science in Computer Science CGPA: 3.62 / 4.00

Vehari, Pakistan

Superior College Hasilpur

August 2020 – May 2022

Intermediate in Computer Science (ICS) Marks: 788 / 1100

Hasilpur, Pakistan

Islamia English Model High School

April 2018 – March 2020

Matriculation in Science (SSC) Marks: 741 / 1100

Hasilpur, Pakistan

Relevant Coursework

- Data Structures and Algorithms
- Design and Analysis of Algorithms
- Parallel and Distributed Computing
- Computer Networks
- Object Oriented Programming
- Database Systems
- Software Engineering
- Artificial Intelligence
- Operating Systems
- Machine Learning

Experience

Digital Empowerment Network (DEN)

June 2025 – September 2025

Web Developer Intern

Remote

- Architected a real-time news aggregator in React, integrating RESTful APIs to dynamically consume, process, and render live content.
- Built a fully responsive e-commerce platform in React, implementing product catalog, cart management, and seamless UI interactions across devices.

Projects

MyCampusRide | MongoDB, Express.js, React, Node.js, Socket.io, Material UI

2025 – 2026

- Developed a full-stack campus transport management system with role-based dashboards for Admins, Students, and Drivers, built on the MERN stack.
- Implemented real-time live bus tracking using Socket.io, enabling students to monitor bus locations with automatic GPS updates.
- Designed a secure RESTful API with JWT cookie-based authentication, role-based access control, file uploads via Multer, and a real-time notification system.
- Built a responsive React UI with Material UI, featuring route and bus management, fee tracking with audit logs, and an admin-managed driver verification workflow.

REST Countries Explorer | HTML5, CSS3, JavaScript, REST API

2024

- Built a responsive country search and filter application consuming the REST Countries API to dynamically render data for 250+ countries.
- Implemented search by name, filter by region, and a detailed country view with border country navigation using vanilla JavaScript.

Technical Skills

Languages: C, C++, Python, JavaScript, SQL, HTML5, CSS3

Developer Tools: VS Code, Git, GitHub

Technologies: React.js, Node.js, MongoDB, Express.js, Socket.io, Material UI

Achievements

Prime Minister's Laptop Scheme

2024

Awarded a laptop by the Government of Pakistan based on academic merit

COMSATS University Islamabad

National Software Competition Test (NSCT) – HEC & P@SHA

2026

Scored 82/100, ranking in the 99.8 percentile among all participants nationwide
